

Tech Specs

The Hiker range is based on the legendary H30 Toyota Hiace LWB. It is well equipped with a 2.8L turbo diesel engine, 6 speed auto, 450NM of torque, 6 SRS airbags, Apple car play, Sat nav, reversing camera & much more.

Our Jacana Euro pop top is made with a composite fiberglass construction & a foam insulated core.

All hinges are made from stainless steel. The pop top canvas is made locally using Australian made 10oz canvas.

The side window spoilers gain valuable space to sleep East/west with a bed size of 1950Lx1400W. The bed is constructed from high-quality aluminum and heavy-duty runners, which makes it both lightweight and durable.

All our Hiker vans come standard with a passenger swivel seat, Fiamma awning, power system, 85l Bushman fridge & much more.

All modifications are engineered to ADR requirements.

Layout options

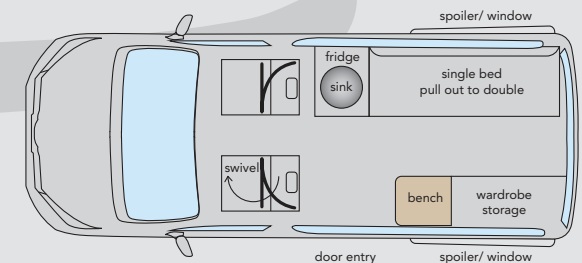

With our LWB Hiker range, we have 3 layout options, with each layout you can select from a vast range of colours.

1- Standard layout with east/west double bed with inner spring mattress, under bed storage & internal galley kitchen.

2- Standard layout with ADR approved fold up twin or single seat, giving additional seating to bring the family with you.

3- Single/pull out double bed, Fridge/sink space & wardrobe storage. This plan is designed to optimize space for internal storage of bikes/surfboards.
