

Tech Specs

The Peak MWB is based on the Iveco Daily 42S18 Van & the LWB is based on the Daily 50C18 Van.

The Iveco Daily range is well equipped with a Turbo diesel 180HP & 430NM torque Euro 6 engine, Electric handbrake, 3500 tow capacity, Hi Matic 8 Speed auto transmission, Reverse camera, Cruise control plus much more.

Our Peak range is well equipped from standard with solar panels, complete off grid power system, 150L fridge, full height shower & toilet & interior galley cooking.

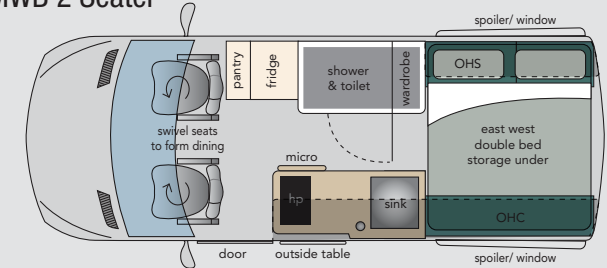

The side window spoilers are designed to maximize space, allowing for an east-west sleeping configuration. The bed, measuring 2060Lx1400W, is spacious and comfortable. Constructed from high-quality aluminium and heavy-duty runners, the bed is both lightweight and durable, ensuring longevity and ease of use.

All modification are engineered to ADR requirements.
