

Tech Specs

The Envy range is based on the legendary Mercedes Sprinter 419 MWB AWD, 419 LWB AWD.

Our Envy range is well equipped with a 4 Cylinder 2 stage- turbo diesel, auto and 450Nm of torque, 6 SRS airbags, ANCAP safety rating, MBux multimedia system, satnav, reversing camera plus more.

Our Envy range is well equipped from standard with solar panels, complete off grid power system, 150L fridge, interior galley cooking & full height shower/toilet.

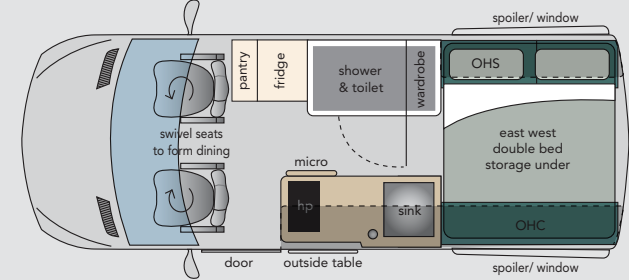

The side window spoilers are designed to maximise space, allowing for an east/west sleeping configuration. The bed, measuring 1970Lx1400W, is spacious and comfortable. Constructed from high-quality aluminium and heavy-duty runners, the bed is both lightweight and durable, ensuring longevity and ease of use.

All modification are engineered to ADR requirements.
