

Tech Specs

The Vista range is based on the reliable VW T7 Transporter LWB van.

It is well equipped with a 2.0L turbo-diesel engine, 8-speed automatic transmission, 390Nm of torque, airbags, Apple CarPlay & Android Auto, satellite navigation, a reversing camera, and much more.

Our Jacana Euro pop-top features a composite fibreglass construction with a foam-insulated core. All hinges are made from stainless steel. The pop-top canvas is made locally for our Euro pop-top using Australian-made 10oz canvas.

The side window spoilers provide valuable additional space, allowing for east-west sleeping with a bed size of 1890L x 1400W.

The bed is constructed from high-quality aluminium and heavy-duty runners, making it both lightweight and durable.

Our Vista van comes standard with driver and passenger swivel seats, a Fiamma awning, power system, Bushman fridge, and much more.

All modifications are engineered to ARD requirements

Layout options

With our Vista range, we have two layout options. With each layout, you can select from a range of colours.

1- Standard 2-seater layout with an east/west double bed with inner spring mattress, under-bed rear and internal drawer storage, and an internal galley kitchen with a Bushman fridge.

2- 4-seater layout with an east/west double bed with inner spring mattress, under-bed rear and internal drawer storage, and an internal galley kitchen with a Bushman fridge. An additional ARD-approved fold-up twin or single seat (additional cost) is available, giving you extra seating to bring the family with you.

Est. 1999

VISTA

The standard front-wheel-drive van comes with factory wheels and tyres, offering a comfortable daily drive while doubling as the perfect getaway van. Its compact size makes it easy to drive and park, with the bonus of a fully equipped campervan wherever you go.

The standard Vista measures 2120H x 2020W x 5340L, weighing in at 2640kg, with a GVM of 3215kg

VISTA - 4motion

Standard van with a 4Motion (AWD) van upgrade.

4Motion offers active, full-time all-wheel drive, giving you extra grip and confidence in wet, gravel, or muddy conditions and the freedom to tackle light off-road terrain with ease.

A range of upgrades is available, including lift kits, all-terrain wheels and tyres, and underbody protection for added confidence off the beaten track.

The 4Motion Vista measures 2120H x 2020W x 5340L, weighing in at 2640kg, with a GVM of 3215kg.
